

CHRIS BAKER—NORTHERN TABLELANDS WILDLIFE CARERS

RAPTOR FLIGHT AVIARY 2019-2020

Thanks to the New South Wales Wildlife Council's grant of \$1216 Chris Baker from Northern Tablelands Wildlife Carers has been able to finish his bird of prey aviary. He has had 9 birds of prey, including 4 Wedge-tailed Eagles in care since September 2019 when his \$3,500 aviary was completed. It has made an enormous difference to the birds in care to have such a facility in

t

he tablelands area. The aviary is located in Uralla and Chris is willing to take birds of prey from other areas if needed. Without NWC's grant the completion of the aviary would have taken much longer.
