

# Northern Tablelands Wildlife Carers --Julia Rose

NTWC wishes to thank NWC for the \$1000 grant to purchase extra equipment to assist our carers when setting up an emergency wildlife rescue station.

Items like tables , chairs ,esky , radio kits, gazebo and first aid kits have set us up well.

The trailer was purchased with a grant under the Northern Tablelands Koala Program and is registered under NTWC.

We have been in contact with IFAW and look forward to conducting our first training day in a local hall. Then we will be ready for the combined services day with NPWS , RFS ,SES and RSPCA.

Members of the rescue team

have completed  
the BFA certificate  
and we have been  
busy contacting  
local hall caretakers to  
be sure of sites near  
bushfire brigade  
sheds.

We look forward to  
connecting with other groups who  
have taken this step for emergency  
field rescue.

Julia Rose
