

Project Description: Purchase Catmax portable enclosure

Grand Recipient: Catriena Naughtin. Northern Rivers Wildlife Carers

On August 10th 2021 I received a grant for \$548.00 and was able to purchase a much needed Catmax enclosure to house my flying fox babies ensuring they had a safe facility to grow and learn how to fly without possible injury. Judging by the behaviour of the babies they love it. Climbing, swinging, chasing each other all around the enclosure gaining the strength they need to take their first test flight. Due to a generous discount from Haverford I had some funds left to buy a tarp for the ground and rope to ensure plenty of areas to hang and play. This is an indoor enclosure as it is not snake proof but has the added advantage that at the end of the season it can be packed away with the other baby things and will

be easy to set up next season. Thank you NWC for the grant, it is and will be a much used and appreciated addition
