

## Wendy Attrill, Flying-fox crèche aviary – Northern Rivers Wildlife Carers

The NWC grant allowed us to improve our inside aviary for the orphaned flying-fox pups going through to crèche.

We completed the work a few weeks before we hosted our first guests and they seemed to approve of the new set up.

Thankfully we didn't have too many come through this season and fingers crossed for more quiet seasons.

The new light improved carers' access and work.
