

NWC Wildlife Rehabilitation Grants Program 2022-2023

Date of grant: 13/08/2022

Grant Number: 092022

Grant Recipient: Sunraysia Wildlife Carers Inc.

Grant Amount: \$2,568

Project Description: Renovation of Macropod Enclosure

Acquittal Report

It is with a lot of gratitude that we thank the NWC for their continued support with grant opportunities 😊 We were able to complete the extension of our Macropod Enclosure fence line, as can be seen by the photos. The timber supports are still in place, because we are in the process of trying to work out a support mechanism to ensure that it does not 'blow over' in the increasingly wild weather that we get now, as a possible result of 'climate change' and unpredictable weather. (we assume)
